**APPENDIX C**

EXHIBIT 1

The permittee respectfully submits that a grant of the instant application would be in the public interest for the following reasons:

Initially, it must be noted that Raystay Co. has built and is currently the licensee of LPTV station WLLS licensed to Dillsburg, PA. Raystay built the station pursuant to a construction permit issued to it by the Commission.

At the present time, equipment for the station has not been ordered or delivered. Raystay, however, has had discussions with equipment suppliers concerning the types and prices of equipment that could be used at the site specified in the construction permit. It has entered into lease negotiations with representatives of the owners of the antenna site specified in the application, although those negotiations have not been consummated. A representative of Raystay and an engineer have visited the antenna site and ascertained what site preparation work and modifications need to be done at the site.

Raystay has undertaken research in an effort to determine the programming that would be offered on the station. It has had discussions with program suppliers to determine what programs could be available for broadcast on the station. It has also had continuing negotiations with local cable television franchises to

ascertain what type of programming would enable the station to be carried on local cable systems.

The denial of this extension request could eliminate any possibility of the proposed LPTV service being offered to the community. No application mutually exclusive with Raystay's construction permit application was filed, so no other entity has expressed an interest in providing this service.

Accordingly, Raystay requests that the Commission extend the date for construction for a period of six months from the date this application is granted or, from the date the current construction permit expires, whichever is later.

Dear Ms. Searcy:

On behalf of Raystay Co., permittee of low power television station W38BE at Lebanon, Pennsylvania, we are submitting an original and one copy of an application for additional time to construct that station.

Pursuant to the Commission's July 11, 1991 Public Notice (FCC Fees, 69 RR 2d 787, 788), no filing fee is required for this application.

Should there be any questions regarding this matter, kindly communicate directly with this office.

Respectfully submitted,

*John J. Schauble*

The APPLICANT acknowledges that all the statements made in this application and attached exhibits are considered material representations and that all the exhibits are a material part hereof and are incorporated herein as set out in full in the application.

CERTIFICATION

I certify that the statements in this application are true and correct to the best of my knowledge and belief, and are made in good faith.

Legal Name of Applicant  Raystay Company	Signature 
Title  President	Date  December 18, 1991

EXHIBIT 1

The permittee respectfully submits that a grant of the instant application would be in the public interest for the following reasons:

Initially, it must be noted that Raystay Co. has built and is currently the licensee of LPTV station W40AF licensed to Dillsburg, PA. Raystay built the station pursuant to a construction permit issued to it by the Commission.

At the present time, equipment for the station has not been ordered or delivered. Raystay, however, has had discussions with equipment suppliers concerning the types and prices of equipment that could be used at the site specified in the construction permit. It has entered into lease negotiations with representatives of the owners of the antenna site specified in the applications, although those negotiations have not been consummated. A representative of Raystay and an engineer have visited the antenna-site and ascertained what site preparation work and modifications need to be done at the site.

Raystay has undertaken research in an effort to determine the programming that would be offered on the station. It has had discussions with program suppliers to determine what programs could be available for broadcast on the station. It has also had continuing negotiations with local cable television franchises to

ascertain what type of programming would enable the station to be carried on local cable systems.

The denial of this extension request could eliminate any possibility of the proposed LPTV service being offered to the community. No application mutually exclusive with Raystay's construction permit application was filed, so no other entity has expressed an interest in providing this service.

Accordingly, Raystay requests that the Commission extend the date for construction for a period of six months from the date this application is granted or from the date the current construction permit expires, whichever is later.

DECLARATION

David A. Gardner, under penalty of perjury, states that the following is true and correct to the best of his knowledge:

In the course of my employment, I provided management services to Raystay Co., which, among other things, is the licensee of low-power television (LPTV) station W40AF, which is licensed to Dillsburg, PA, and held construction permits for LPTV stations in Lancaster, PA, and Lebanon, PA.

In the latter part of 1991, I was involved in negotiations with several parties who were interested in purchasing, the Lancaster and Lebanon LPTV construction permits. One of the parties I negotiated with who expressed interest in purchasing the construction permits was Trinity Christian Center of Santa Ana, Inc. d/b/a Trinity Broadcasting Network (Trinity).

In the early fall of 1991, one of the parties who was exploring purchasing the construction permits asked me to call the owners of the Lancaster and Lebanon sites to ensure that the sites were still available. I cannot recall whether it was Trinity or another potential buyer that made that request. I called Ready Mixed Concrete Company, the owner of the Lancaster site, and the Quality Inn, the owner of the Lebanon site. I was informed by representatives of both companies that they were still willing to negotiate an agreement to make their respective properties available as sites for LPTV stations. I generally discussed possible lease terms with both individuals.

A contract engineer hired by the potential buyer made arrangements to inspect both sites. He subsequently informed me

that he visited both the Lancaster and Lebanon sites. That inspection was the visit mentioned by Mr. Rick in Paragraph 4 of his April 19, 1993 affidavit. With respect to the suitability of the sites, the engineer was impressed with the Lebanon site, but he was concerned with the dust at the Lancaster site. If anybody told Mr. Rick that the site was unsuitable, it was the buyer's engineer, not me. I was not told anything which would lead me to conclude that the site was unsuitable for Raystay's purposes.

In December 1991, I called John Schauble of Cohen and Barfield and asked him to prepare applications to extend the Lancaster and Lebanon construction permits. Mr. Schauble and I discussed what actions had been taken with respect to the construction permits. He then sent me, via facsimile, the documents that became Exhibit 1 of the applications to extend the construction permits. I believed the statements in the exhibit were accurate, so I approved the exhibit. Mr. Schauble then prepared the remainder of the application, which he sent to me.

With respect to the statement in the exhibit that Raystay "has entered into lease negotiations with representatives of the owners of the antenna site specified in the applications," I believe that my telephone calls with the representatives can fairly be described as preliminary "lease negotiations," since we generally discussed the terms under which the sites might be made available. With respect to the statement, "A representative of Raystay and an engineer have visited the antenna site and ascertained what site preparation work and modifications need to be done at the site,"

that statement refers to the engineer's visit to the sites. As far as I was concerned, one of the purposes for the visit was to determine what site preparation work and modifications would have to be made at the sites. Although I did not accompany the engineer on his visit, I have seen both sites.

Until the last couple of weeks, I had no reason to believe that the sites specified by Raystay in the Lancaster and Lebanon LPTV applications would have been unavailable to Raystay if those stations had been built. To the best of my knowledge, neither I nor anybody else connected with Raystay ever made a judgement that the sites were unsuitable as antenna sites for LPTV stations.
